Creative Human Resources Concepts, LLC (CHRC) is currently recruiting for positions within the oil & gas industry.

Certified Welding Inspectors (CWI)

JOB DESCRIPTION: Inspect and insure that weld performed on pipeline or other equipment are implemented as required in the contract specifications. Responsible for overseeing the quality assurance/quality control on behalf of client.

ESSENTIAL DUTIES AND RESPONSIBILITIES:

- Perform internal and external inspections to determine if a weldment or equipment meets the acceptance criteria of a specific code, standard or document.
- Conduct inspections on equipment at scheduled intervals to maintain the mechanical integrity of the fixed equipment of the facility.
- Properly interpret regulations, codes and industry standards.
- Use a computer to compile and submit daily reports and inspection reports, as well as for inter-office communications.
- Compile and submit completed inspection report in a timely manner.
- Pay attention to detail and be capable of recommending and approving repairs as well as performing visual inspection of completed work.
- Drive a vehicle safely in extremely hazardous conditions.
- Maintain a positive relationship between client, facility and customer; and promote a positive attitude towards coworkers.

REQUIRED EDUCATION/EXPERIENCE/CERTIFICATES AND LICENSES:

- 5 to 10 years' experience in weld inspection related activities (QC, NDT, etc.) within Oil & Gas Processing and Pipeline projects.
- Certification as an Inspector required (AWS, QC1). Extensive practical experience required.
- Extensive knowledge of industry standards including API-1104, ASME B31.3, B31.4, B31.8, AWS D1.1, ASNT & NACE.
- Current Drivers License from state of residence.
- Must be willing to Lead and Work (hands-on) with other CWIs on project as the inspection team grows. Must be innovative, pay attention to detail, increase company productivity on projects and lead teams by example.
- Must be able to travel out of town 50% or more of the time and work various shifts.
- Ability to interpret engineering drawing to include Piping, Structural and Architectural.
- Process above average knowledge/skills in report writing and use of computer for job related research and communication.
- Perform monitoring and surveillance activities of contractor QC and Craft personnel for compliance to industry standards and project specifications.
- Working knowledge of Nondestructive Examination methods; former certification and radiographic interpretation is a plus.
- Self-starter type with ability to perform job requirements in a detailed, timely manner with minimal direct oversight.
- Ability to climb ladders, stairs, lift heavy objects and work in cold weather climate environment.
- Good communication skills and ability to interface with Client and Contractor personnel.
- Drug and alcohol screens are performed monthly.

Any job offer is contingent upon the successful completion of pre-employment drug screen, physical, criminal background check, education and employment verifications. NO FELONIES AND CLEAR DRIVING RECORD are required. All qualified candidates for this position must be eligible to work in the United States without VISA sponsorship.

SHIFT/HOURS: Shifts & Hours will vary – Must be flexible to work overtime – Travel required 50% to 75% of time

PAY RATE: Depends on Experience and Work Location
